POLY AGRICULTURAL SOLUTIONS

SKU:
FTU-10000LP

DIMENSIONS:
3500L x 2430W x 1770H

FEATURES:

- ✓ Strength; the FTU range of tanks that Enviroform offers are built heavy duty to handle the moving forces of liquids up to 1.3 Specific Gravity (SG).
- ✓ Safety; they also are fully engineer approved to be highly safe to use while complying with all relevant Australian standards.
- ✓ Warranty & Material Integrity; the materials used in the manufacture of this range are fully UV protected to ensure they perform for the 15 year warranty, standing up to the tough Aussie conditions while still be of food grade quality.
- ✓ Australian Design; fully owned and manufactured in Australia
- ✓ Easily Mountable; Specialised 'clawfoot' mounting system for sure and secure permanent and semi-permanent installation applications. Mounting pins supplied ready to go with required bolt holes.
- ✓ Rust Free fittings; Brass full threaded (internal and external) outlets used to ensure not only water safety quality but longevity of the parts added to the tank.
- ✓ Tank Access; secure tank access lid(s) supplied as standard. Enables easy access to clean/maintain the tank internally. The lids/access parts used enable ease of filling from use to use as well.
